Test Suite : 2.4 Negotiate

Test Case Cerebro6.0-19: Student negotiates with Independant Tutor

Summary:

The public profile page of all tutors has a "Negotiate" button. As the tutor is an independent private tutor, negotiation will happen with the independent tutor.

Whenever a student clicks on the negotiate button, System starts a new negotiation thread between the independent tutor and the student. The negotiation option redirects student to a message page. There is a pane showing all open negotiation. The student can select any one to view the exchanged messages.

The page shows a list of negotiable parameters. These parameters are editable for the independent tutor, but not for the student. The values being set are derived from the tutor's profile by default. The independent tutor can change the parameters based on requests made by the student.

There is a message box, where messages can be entered by the students to request change of terms.

There is a "Close Deal" button for each thread. Clicking of this button by one party prompts the other user with two new buttons – Acknowledge and Reject. In this state, negotiable parameters are un-editable on either side. The other party may choose to either acknowledge in which case System marks the negotiation successful, and register the Student in the list of registered students for the tutor. In case Reject is selected, both actors are brought back to the negotiation stage.

There is a "Cancel Negotiation" button. Clicking this button closes the thread and negotiation is considered unsuccessful.

#:	Step actions:	Expected Results:	Execution Status:
1	<p>a. Student Bhaskar Ghosh clicks Negotiate button on Independant Tutor Samir Sen profile.</p> <p>b. Student clicks on the recently created negotiation with Independant Tutor.</p> <p>c. Student submits message: remuneration of 500, Tuesday slot at 6 p.m., location at 25 Kudghat Road, batch preference as alone.</p> <p>d. Independant tutor views the message sent ny Student and Edits:</p> <p>Remuneration:500</p> <p>Day Slot Preference: Tuesday</p> <p>Time Slot Preference: 6 p.m.</p> <p>Location Preference: 25 Kudghat Road</p> <p>Batch Preference: Alone.</p> <p>e. Test Suite : 2.5 Search Tutors

Test Case Cerebro6.0-21: Student searches Tutor

Summary:

System provides a form to the user to enter search criteria. The criteria are as follows-Discipline, Discipline Sub-category, Remuneration, Day Slot Preference, Time Slot Preference, Location Preference, Experience Preference, Age Preference, Gender Preference, Batch Preference, External agent verification.

The System will generate a graphical box with all the filled value fields listed in the above mentioned order. The user can slide the fields across one another to decide an order of priority. After finalizing the priority they hit a "Finalize Priority" Button to set priority.

The System provides a "Find" Button to initiate the search process. Hitting the button sends the form data and priority to the search engine end point, with instruction to initiate a search process.

The System returns results to the user in a well formatted results page, as a list of tutors in preordered rank. The page has results, with each result having a "Visit Profile" Button to allow users to visit the profile of the concerned tutor. There will also be a "Contact" button which links to the Negotiation system.

The result page has a "Refresh Search" Button which will redirect the user to the search criteria form page with a new form, and the user can start the search process afresh.

#:	Step actions:	Expected Results:	Execution Status:
1	a.Enter: Discipline:Academics Discipline Sub-category: English Remuneration: 500-600 Day Slot Preference: Any Time Slot Preference: Any Location Preference: Any Location Experience Preference: 10 Age Preference: 30-40 Gender Preference: Male Batch Preference: Up to 10 External agent verification: Not mandatory Actor clicks of Submit Criteria button. b.Actor drags Experience Preference above Day Slot Preference. Actor clicks on Finalize Priority button. c. Actor clicks on Find button.	a.System generates graphical box with given values in default order. b.System redirects Actor to a page with entered criteria in modified order with a Find button. c. System redirects Actor to results page containing tutors with matching criteria. Tutors managed by Agents are marked clearly so.	Passed
2	Enter: Discipline:Academics Discipline Sub-category: English Remuneration: 600-500 Day Slot Preference: Any Time Slot Preference: Any	System returns an error message stating that remuneration lower bound should be smaller than higher bound and redirects Actor to Search Tutor page.	Passed

	Location Preference: Any Location Experience Preference: 10 Age Preference: 30-40 Gender Preference: Male Batch Preference: Up to 10 External agent verification: Not mandatory Actor clicks of Submit Criteria button.		
3	a.Enter: Discipline:Academics Discipline Sub-category: English Remuneration: 500-600 Day Slot Preference: Any Time Slot Preference: Any Location Preference: Any Location Experience Preference: -10 Age Preference: 30-40 Gender Preference: Male Batch Preference: Up to 10 External agent verification: Mandatory Actor clicks of Submit Criteria button. b.Actor drags to rearrange items in reverse order. Actor clicks on Finalize Priority button. c. Actor clicks on Find button.	System returns an error message stating experience cannot be negative and redirects Actor to Search Tutor page.	Passed

Test Case Cerebro6.0-8: Review			
#:	Step actions:	Expected Results:	Execution Status:
1	Review done by a registered current/ex-student of the concerned tutor: 1. Student selects a Tutor to review. 2. Student writes a review. 3. Student selects a "Positive" or "Negative" indicator. 4. Student hits "Submit".	System checks whether the student is a registered current/ ex-student of the concerned tutor and finds out that he is a registered current/ex-student of that tutor. So the review is marked and added to the verified review records of the tutor and a "Verified Student" badge is shown beside the name of that student in the rating/review section. System acknowledges the review and shows this review in all subsequent calls for the tutor's profile .	Passed
2	Review done by a non registered student about a tutor:	System checks whether the student is a registered current/ ex-student of the concerned tutor and finds out that he is not a registered student. So the review is marked and added to the unverified review records of the tutor and the "Verified Student" badge is not shown beside the name of	Passed

Test Case Cerebro6.0-9: Student Verification			
#:	Step actions:	Expected Results:	Execution Status:
1	1. The System will look up a record of all students that a particular tutor has marked as a student. 2. System discovers that the concerned student is either a current/ex-student of the tutor whom he has reviewed.	A “Verified Student” badge is shown beside the name of that student in the rating/review section. This Verified vs. Unverified ratings and reviews will affect the search ranking of the tutor.	Passed
2	1. The System will look up a record of all students that a particular tutor has marked as a student. 2. System discovers that the concerned student is not recorded as either a current/ex-student of the tutor whom he has reviewed.	The “Verified Student” badge is not shown beside the name of that student in the rating/review section. This Verified vs. Unverified ratings and reviews will affect the search ranking of the tutor.	Passed
